PROJECTS

BizTech Morocco Website — *Front-end developer*

September 2022 - October 2022

Moroccan Community for Business And Technology.

I rebuilt the BizTech Morocco Website using Next.js and Tailwind CSS.

- I used the react-icons npm package to make the site look soft, clean, and straightforward.

- I implemented Youtube-V3-API for fetching the videos of the talks from their YouTube Channel.

CERTIFICATIONS

JavaScript Algorithms and Data Structures - FreeCodeCamp

March 2021

During this awesome and unique course, I learned how to use the right data structure while dealing with storing the data, I also learned about a bunch of useful algorithms while trying to solve common and rare problems.

Create Your Own Web Page - IBM

March 2021

After I did some research about the meaning of a web app, I get into how to create one, So I took this course.

The first step was to try to understand the combination of the web word and the app word and merge them in the context of the advanced way to build websites.

EDUCATION

Self-Taught, Salé, Morocco

May 2017 - Present

I'm still searching & learning about anything I am interested in. My learning journey of mine never stopped since the first day I decided to learn HTML & CSS.

ABI BAKR EL KADIRI, Morocco — *High School*

November 2020 - July 2021

I took a break from coding to work hard to get my high school degree in physical sciences.
