Demo

CERTIFICATIONS

JavaScript Algorithms and Data Structures - FreeCodeCamp
Mars 2021

During this awesome and unique course, I learned how to use the right data structure while managing data storage, I also discovered a bunch of useful algorithms while trying to solve common and rare problems.

Build your own web app - IBM
Mars 2021

After researching the meaning of a web application, I figured out how to create one, so I took this course.

The first step was to try to understand the combination of the word web and the word application and merge them in the context of the advanced way of building websites.

EDUCATION

Self-taught, Salé, Morocco

May 2017 - Present

I continue to seek and learn everything that interests me. My learning journey has never stopped since the first day I decided to learn HTML and CSS.

ABI BAKR EL KADIRI, Morocco — High School

November 2020 - July 2021

I took a break from coding to work hard to get my high school diploma in physical sciences.
